SUMMARY

Curious and self-driven Front-End Developer with 2+ years of hands-on experience building fast, accessible, and responsive web applications using React and Next.js. Proven track record turning business ideas into production-ready UIs, optimizing component reusability, and able to collaborate across product teams. Passionate about solving real-world problems, continuous learning, and delivering delightful user experiences.

CORE SKILLS

JavaScript (ES6+), React.js, Next.js, MERN stack, Tailwind CSS, ShadCN, Flowbite, Framer Motion, HTML5, CSS3, Flexbox & Grid, Responsive & Mobile-First Design, RESTful APIs & JSON, Firebase & Firestore, Node.js, Express basics, Git & GitHub

PROJECT HIGHLIGHTS

Job Board Platform (MERN) | 2025

Built a multi-role job board (Next.js + Firebase) supporting employers, job seekers & handymen with real-time chat, online presence, and tier-based access.

Crypto Wallet Admin UI | 2025

Delivered an interactive React interface to add & manage cryptocurrency wallets; used React Query for caching and presented dynamic loading animations for UX polish.

Implemented base64 logo uploads and automatic data refresh post-submit.

EXPERIENCE

Founder / Full-Stack Freelancer | InspireMe Media Networks | 2023 – Present

Design and deliver custom web solutions for SMEs in real estate, Finance, often end-to-end from Figma wireframes to deployment on Netlify.

EDUCATION

Self-Taught Software Development Path (Ongoing) | 2023-Present

Completed 20+ project-based courses from freeCodeCamp, Scrimba, and The Odin Project. Currently following road-map to Cyber Security.

COMMUNITY & LEADERSHIP

Mentored 3 Junior devs via local study groups.
